Instructions

Québec Pension Plan (QPP) contributions

The QPP is a mandatory public insurance plan for workers 18 or over whose yearly income is more than \$3,500. You must contribute until the year you turn 73, which means that you will not pay contributions on the salary and earnings you receive as of January 1 of that year.

Part A – Section 2

Eligibility

You can elect to stop making QPP contributions if you meet **all** the following conditions:

- You are self-employed or a person responsible for a family-type resource or an intermediate resource.
- You were 65 or over but under 73 at the end of the year.
- You receive a QPP or Canada Pension Plan (CPP) retirement pension.
- You did not revoke an election to stop making QPP contributions during the year.

You can make the election as of the day after your 65th birthday.

NOTE

It is usually better to continue making QPP contributions after you turn 65. For more information, go to the Retraite Québec website at retraitequebec.gouv.qc.ca.

Conditions for the election

You can only complete this schedule **once a year**. If you elect to stop making QPP contributions one year, you cannot revoke the election until the following year.

Example

If you elected to stop making QPP contributions in June, you will have to wait until at least January 1 of the following year to revoke your election and resume your QPP contributions.

Likewise, if you revoke an election you made in a previous year, you will have to wait until the following year to make a new election to stop making contributions.

Election

To make the election to stop making QPP contributions, complete this schedule and file it with your income tax return for the year in which you want the election to apply.

If you are self-employed or a person responsible for a family-type resource or an intermediate resource, the election will apply to your income from self-employment only. To make this election for your employment income for the same year, complete form RR-50-V, *Election to Stop Contributing to the Québec Pension Plan, or Revocation of an Election*, send it to us and give a copy to your employer(s).

Be sure to keep proof that you receive a QPP or CPP retirement pension so that you can provide it on request.

Effective election date

The election comes into effect on the first day of the month in which you made it. We will stop calculating your QPP contribution as of the first day of the election month.

Revocation

To revoke an election to stop making QPP contributions, complete this schedule and file it with your income tax return for the year in which you want the revocation to apply.

If you made an election during the year and you want to resume your QPP contributions, you cannot revoke it **until you file your income tax return** for the following year.

Example

If you elected to stop making QPP contributions in June, you will have to wait until at least January 1 of the following year to revoke your election and resume your QPP contributions.

The revocation takes effect on the first day of the month you made the revocation. We will calculate your QPP contributions as of the first month covered by the revocation.

Part C

Optional contribution on certain types of employment income

If the total QPP and CPP contributions you made as an employee in 2025 (lines 98, 98.2, 96 and 96.2 of your return) were less than \$4,735.20 and you want to increase your QPP benefits, you can make an additional contribution on all or part of the income reported on line 107 and on certain income included on line 101 (see "Optional contribution to the Québec Pension Plan (QPP)" in the instructions for line 101). If you decide to make an additional contribution, check box 444 on your return and complete Part C of this schedule.

However, if you entered amounts on lines 96, 96.1 and, if applicable, 96.2, complete form LE-35-V, *Contribution and Deduction Related to the QPP or the CPP*, instead of this schedule. Do not enclose the form with your return, but keep it for your records.

You must request the optional contribution no later than June 15 of the second year following the year for which you want to make the contribution.

Indian

If you are an Indian, complete the following lines in Part C as follows:

- On line 30, include the net business income entitling you to a deduction on line 293 of your return.
- On line 31, include your pensionable earnings as a person responsible for a family-type resource or an intermediate resource that constitute income situated on a reserve or premises.
- On line 31.2, include the net business income entitling you to a deduction on line 293 of your return and your pensionable earnings as a person responsible for a family-type resource or an intermediate resource that constitute income situated on a reserve or premises (both included on line 31.1) for which you **are not electing to** make QPP contributions.
- On line 32, include the employment income entitling you to a deduction on line 293 of your return, on which QPP contributions were not withheld at source and on which you are making an optional QPP contribution.

If all the employment or business income on which you are making an optional contribution entitles you to a deduction on line 293 of your return, you cannot claim a deduction for the optional contribution.

Special cases

- If you are **self-employed** and all your business income entitles you to a deduction on line 297 (points 7, 9 and 12), you cannot deduct the contribution payable in respect of that business. If necessary, we will correct the amount you enter on line 248.
- If you are **a person responsible for a family-type resource or an intermediate resource and you received an RL-29 slip**, you cannot claim a deduction for the contribution payable on the earnings you entered on line 40 of Schedule L. If you entered amounts on lines 30 and 32 of Schedule U, contact us.

Lines 30 and 31 Applicable number of months

If situation 1, 2, 3, 5 or 6 in Table 1 on page 10 applied to you, multiply the net business income to enter on line 30 or the pensionable earnings to enter on line 31 by the result of the following calculation: the applicable number of months according to column B in Table 1 divided by 12.

Line 39 Personal exemption

If none of the situations in Table 1 below applied to you in 2025, enter \$3,500 on line 39. Otherwise, determine the number of months to consider using column C. Then, find that number in Table 2 on page 10 and enter the corresponding amount from column B on line 39.

Line 44 Maximum pensionable earnings

If none of the situations in Table 1 applied to you in 2025, enter \$71,300 on line 44. Otherwise, determine the number of months to consider using column C. Then, find that number in Table 2 and enter the corresponding amount from column C on line 44.

Line 53 Additional maximum pensionable earnings

If none of the situations in Table 1 applied to you in 2025, enter \$81,200 on line 53. Otherwise, determine the number of months to consider using column C. Then, find that number in Table 2 and enter the corresponding amount from column D on line 53.

I certify that the data entered on this form corresponds to the data in the income tax return. The information given in this form and in the attached documents is accurate and complete and fully discloses all my income.

If I am entitled to a refund and entered an amount on line 476, I agree to have the amount applied to the payment of my spouse's balance due (line 475 of my spouse's return).
